## OUR LATEST PROJECTS

---

NATIONAL

### **Beaumont 2024 Economic Strategy**

This project highlights the community's resilience, aiming to elevate its economic trajectory through collaboration and analysis. AngelouEconomics works closely with Beaumont to align strategies with local priorities, fostering sustained growth.

The strategy prioritizes job creation and quality of life enhancement through stakeholder engagement and strategic recommendations. Continued collaboration among stakeholders is crucial to realizing Beaumont's economic potential and ensuring a thriving, sustainable economy.

---

## INTERNATIONAL

### **Investment Marketing Project for Galați County, Romania**

AngelouEconomics and Galati County are teaming up to boost economic growth. Our plan targets foreign investment and job creation, positioning Galati County as a prime destination. With tailored marketing strategies and investment tours, they aim to attract US-based businesses.

A dedicated Galati promotional office in the US will facilitate this effort, providing support and fostering relationships. Together, they're set to elevate Galati County's economic standing on the global stage.

# EXCITING PAST PROJECTS

---

## **ECONOMIC IMPACT STUDY:**

### **Lollapalooza Music Festival**

Lollapalooza 2023 fueled a \$434 million economic surge in Chicago, marking a \$98 million increase from last year. AngelouEconomics' analysis highlighted the festival's economic contributions to the city since 2010, alongside community initiatives enriching Chicago's cultural and social scene.

## **ECONOMIC DEVELOPMENT STRATEGY:**

### **Kemmerer & Diamondville, WY**

In collaboration with local stakeholders, AE analyzed advantages, devised development scenarios, and fostered partnerships to attract new businesses and stimulate job creation in Southwest Lincoln County.

## **PUBLIC POLICY INITIATIVE:**

### **Tax Cuts & Jobs Act Economic Impact Study**

Under AngelouEconomics' analysis, Trump's tax plan altered the implementation of the property tax nationwide. Now, all taxpayers in the US can utilize this tax deduction, which allows for the deduction of up to

\$10,000 of property taxes, along with other state and local taxes, when itemizing deductions on federal tax returns.

---

## **SITE SELECTION PROJECT:**

### **Lancium Technology**

Lancium Technology, spearheaded by AngelouEconomics, aims to establish renewable energy-powered data centers across West Texas. Strategic negotiations and thorough planning with local governments will drive the project's success.

## **CLIENT SPOTLIGHT**

This is what our clients tell about our assistance and the milestones they have achieved with the help of our expertise.

### **Brian Muir**

“[Angelos Angelou](#) and [Matt Patton](#) from AngelouEconomics provided indispensable expert guidance to the City of Kemmerer. They were instrumental in our efforts to bring the TerraPower Natrium™ Advanced nuclear reactor to our community. Their support in creating a new website and developing presentations helped showcase our economic goals

### **Michael Emmett S. Beliveau**

“We’ve worked with AngelouEconomics for several years and are continually impressed with their expertise, responsiveness, and work ethic. Our projects span multiple states, involve novel engagements, and changing partners – and with AngelouEconomics, we have always found a group of professionals ready

effectively, influencing the decision makers' choice in favor of Kemmerer."

to handle whatever we have thrown their way."

**Brian Muir**

City Administrator  
City of Kemmerer

**Emmett S. Beliveau**

COO  
C3 Presents (Live Nation Company)

## INDUSTRY INSIGHTS

---

The semiconductor industry drives demand for smaller, faster devices, with nations competing to lead through strategic investments in fabrication technology.

According to [The Economic Times](#), India's chip-making efforts are evident in recent developments, with Prime Minister Modi inaugurating new manufacturing facilities in Gujarat and Assam. These initiatives aim to position India as a global semiconductor hub, strategically placing investments in fabrication and assembly units. India boasts a substantial talent pool for chip design, reflecting a proactive approach to assert itself amidst shifting global supply chains away from China and Taiwan.

[AngelouEconomics](#) supports ventures globally, advising on site location, incentives negotiation, economic development planning, economic impact and feasibility studies, and economic research. Leveraging their expertise, AE fosters innovation and drives growth across diverse contexts.
